Profile

Frontend Developer with UI/UX design skills, building responsive web applications with React and Next.js and designing user interfaces through wireframing, prototyping, and user flow .

Education

Bachelor of Computer Science, Shorouk Academy 2020 – 2024
Grade: Very Good

Internships

- **Information Technology Institute (ITI)** *July 2025 – Nov 2025*
  UI/UX Development — Intensive Code Camp, Cairo University
- **Digitera Program — Tech Track** *Sep 2026 – Present*
  Requirements Analysis (BRD/PRD), Jira Sprint Planning, AI-Assisted Development, Git/GitHub Collaboration, Debugging, Testing, and Career Readiness

Technical Skills

- **Languages**: HTML5, CSS3, JavaScript, TypeScript, C#, Python
- **Frontend Technologies**: React.js, Next.js, Bootstrap, Tailwind CSS, Sass
- **UI/UX Design**: Figma, Illustrator, Photoshop, Wireframing, Prototyping, Information Architecture, User Research
- **Tools**: Git/GitHub, Jira, Slack, RESTful APIs, Postman
- **Software Design**: OOP, Design Patterns, Agile, Data Structures, Algorithms

Courses

- **React Advanced Bootcamp – Elevate**: React, Next.js, TypeScript, API integration, state management, Clean Architecture, performance optimization, PWA, unit testing, reusable code, Design Patterns, SOLID, and Agile. 2026
- **UI/UX Route Academy Diploma**: UI/UX design, Figma, wireframing, sketching, Adobe Photoshop, Adobe Illustrator, information architecture. 2025
- **Backend .NET Route Academy Diploma**: C#, ASP.NET Core, SQL Server, Entity Framework, LINQ, and system design basics. 2024
- **Problem Solving**: Algorithms fundamentals including sorting, binary search, and greedy techniques using C++. 2022

Projects

- **Graduation Project — Chatbot Integration in E-book App**: Developed and integrated a conversational chatbot into an e-book application using Python, NLP, and machine learning, answering user queries and recommending books with personalized reading suggestions based on user preferences (Grade: Excellent). 2024
- **ITI Projects — UI/UX & Frontend Development**: 2025
  - **Home Services Platform— ITI Graduation Project**: Web platform connecting customers with technicians and service companies, built with Vue.js 3, Tailwind CSS, and Firebase, featuring 4 user roles, real-time order tracking and chat, PayMob payments, technician and admin dashboards, and a Gemini-powered image-analysis assistant.
  - **AI Chat Integration**: Real-time chat application using Gemini AI API with message history and responsive UI.
  - **Admin Dashboard**: Responsive dashboard with charts and user management using Vue.js and Tailwind CSS.
  - **Memory Game**: Interactive matching game using TypeScript with DOM manipulation and event handling.
  - **Website Redesign**: Redesigned Edraak website focusing on UI/UX improvements using Figma.
  - **PWA To-Do List**: Progressive Web App with offline support and local storage synchronization

- **Exam Application**: Responsive exam platform built with Next.js, React, TypeScript, Tailwind CSS, and shadcn/ui, featuring NextAuth authentication with OTP verification, timed quizzes with result analytics, and an admin dashboard for managing diplomas, exams, questions, and audit logs. 2026
- **Rose App — E-Commerce Platform**: Responsive e-commerce platform for gifts and flowers built with Next.js, React, TypeScript, Tailwind CSS, and shadcn/ui, featuring NextAuth authentication with multi-step email OTP verification, cart, wishlist, multi-step checkout with Stripe payments, web push notifications, light/dark themes, Arabic/English support, and an admin dashboard with revenue and order analytics. 2026
- **FitCoach — Fitness Platform**: Responsive fitness platform built with React, TypeScript, Tailwind CSS, and shadcn/ui, featuring authentication with multi-step registration, exercise and meal-plan, light/dark themes, an AI fitness assistant powered by Gemini, and Arabic/English support. 2026
- **ERP Web Application** : Responsive ERP system covering CRM, project management, finance, accounting, messaging, and reports, built with Vue.js 3, Tailwind CSS, Chart.js, and ECharts. 2026
- **Furniture E-Commerce Website**: A responsive e-commerce platform built with Vue.js 3 and Tailwind CSS, featuring an interactive product catalog and user authentication (login/signup pages) 2025

Soft Skills

- Willing to learn new tools and technologies.
- Pays attention to UI details and user interactions.
- Maintains organized code and a clear project structure.
- Asks questions and seeks clarification when requirements are unclear.
